local hashtags too, such as your
local towns and villages.

You'll see this little menu in the
bottom right corner as you open
any of the hyperlinks.

A little bit **ABOUT R9**

Residence 9 (R9) is a luxury window and door system designed to authentically replicate 19th Century timber designs. The traditionally elegant flush exterior and stylish decorative interior creates that classic aesthetic making it an ideal choice for heritage and period properties.

Combining classic aesthetics with cutting-edge technology, Residence 9 is perfect for period homes, especially in conservation areas where maintaining historical integrity is essential. R9 has been created by mirroring historical window sizes and extracting the key principles of Article 4 directions, authentically replicating traditional timber sightlines.

R9 can tick all the boxes for your property. It is designed to replicate the flush timber designs found in heritage properties in our towns, villages and cities. Engineered with a robust 100mm frame and nine chambers, these windows deliver superior thermal and acoustic performance, with an A++ WER rating, achieving u-values as low as 0.74 W/m²K (triple glazing) and 1.2 W/m²K (double glazing). For doors, R9 includes dedicated door sashes for both open-in and open-out doors. R9 offers three stylish bead designs - decorative, square, or staff*.

R9 enables you to replace your windows and doors with an authentic design and in heritage colours whilst retaining the character of your home.

**Special Order Only*
