Product full identity:

Decorative Wall Cladding

This unique range of decorative hygienic wall cladding combines the benefits of our uPVC fire rated material with high-resolution digitally printed images and a UV cured clear hard coating. The coating provides permanent protection to the printed surface offering superior abrasion and chemical resistance whilst the sheet material is easily cut, formed and glued.

Properties

- Effective hygienic wall protection
- Good temperature range (+60 to -0°C)
- Ten unique wall designs
- High abrasion and chemical resistance
- Clear transparent high gloss or matt finish
- Durable, enhancing the life of uPVC substrate
- Easy to install
- Fire Rating: BS EN 13501-1:2018 = Class B, s2, d0

Applications

- Hotels
- Retail
- Restaurants
- Kitchens
- Bathrooms
- Leisure Facilities
