

Blast-Resistant Façade Series FC-BR80+

Parameter	Specification
Minimum Face Width	80 mm
Minimum-Maximum Glass/Panel Thickness	24...44 mm
Maximum Glass/Panel Thickness	44 mm
Burglar Resistance	Up to RC 2
Blast Resistance	Yes
Air Permeability	AE
Watertightness	RE 1200
Wind Load Resistance	2.0 / 3.0 kN/m ²
Impact Resistance	Class 5
Uf Value of Frame (≥)	1.2 W/(m ² ·K)
Security System	Yes
Area of Application	External use, Residential projects, Commercial projects, High-security buildings
Type of Design	Multi-storey façades, Sloped roofs, Skylights, Add-on constructions
Installation Option	Wall-mounted / façade-integrated
