Metal Tiles

# TacTile® Modular Metal Tiles

Interior metal tiles increasingly feature in contemporary design projects due to their unique and striking characteristics. They create a visually interesting and dynamic surface enhancing the overall aesthetics of a room. The three dimensional surfaces of the tiles interact with light in unique ways, creating shadows, highlights and texture that add to the overall ambience of the room. In addition to their visual appeal, these tiles are highly durable and versatile, making them an ideal choice for both functional and decorative applications in modern interior designs.

*TacTile® offers an almost infinite palette of colours and textures, allowing you to seamlessly match surfaces to your design themes and colour schemes*

TacTile® modular metal tiles come in a variety of embossed shapes and patterns and can be crafted from a range of metals. These include natural finishes such as stainless steel, copper, bronze, zinc, and aluminium, as well as pre-coated and custom colour-matched powder coatings to your specific RAL colour specification. TacTile® is available in patterned, smooth and perforated options as well as bespoke patterns on request. When paired with your choice of metal and finish, the possibilities are nearly endless, ensuring your designs are both eye-catching and unique.

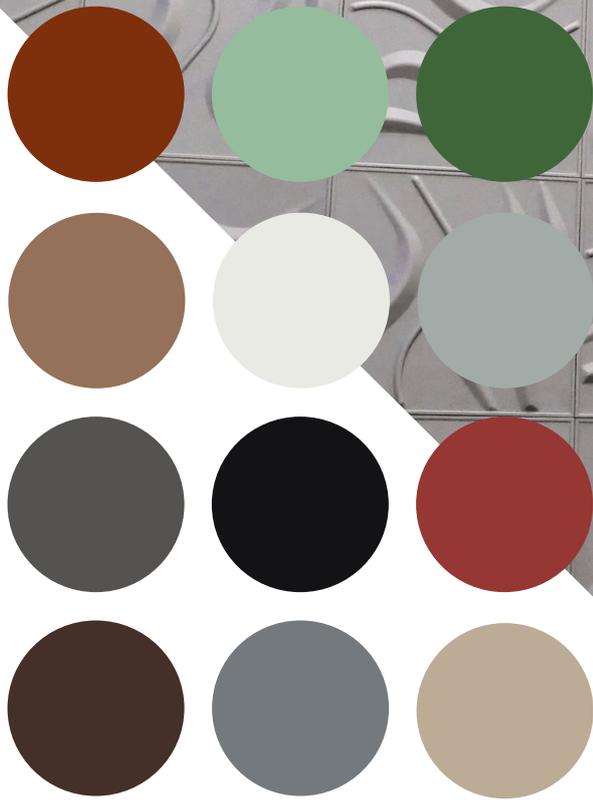

*TacTile® with a mix of patterns and colours*

*TacTile® with bespoke perforations*

## The Advantages of Using TacTile®

- ✓ TacTile® can be powder-coated to your exact RAL specification to fit your project's unique colour and aesthetic needs.
- ✓ TacTile® offers exceptional durability, ensuring that your designs continue to look great.
- ✓ TacTile® is ideal for creating striking feature walls, accent areas, ceilings, and more.
- ✓ TacTile® is made from durable, sustainable and recyclable materials.
- ✓ Coated TacTile® is easy to clean and maintain, making it a practical choice for both residential and commercial interiors.
- ✓ TacTile® is easy to install using rails, clips and trims that hold the tiles securely in place.

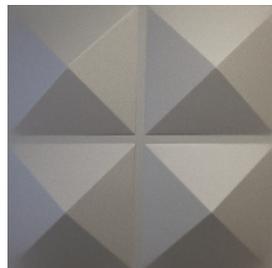

Some of the standard precoated colours available
