

UKCA & CE Marking - Façade Creations

What is UKCA & CE Marking?

At Façade Creations, UKCA and CE Marking represent our commitment to delivering products that meet the highest standards of safety, performance, and compliance.

UKCA (UK Conformity Assessed) and CE Marking confirm that a product complies with the required regulations and performance standards set for construction products, including windows and doors. These markings demonstrate that each product has been assessed against essential characteristics defined under relevant standards such as EN 14351-1.

Following the UK's exit from the European Union, UKCA Marking was introduced as the standard for products placed on the market in Great Britain, while CE Marking continues to be recognized across Europe and, in many cases, alongside UKCA.

Our Responsibility at Façade Creations

At Façade Creations, we take full responsibility for ensuring that every finished product we supply meets UKCA and/or CE compliance requirements.

This means:

- Every product is manufactured and tested to meet defined performance standards
- Compliance is verified through documented declarations
- Proper marking is applied before installation or delivery

Whether acting as a manufacturer, fabricator, or installer, we ensure that all obligations related to compliance are fully met.

How We Achieve Compliance

Façade Creations follows a structured and rigorous process to ensure UKCA and CE compliance across all products:

1. Declaration of Performance (DoP)

We provide a formal Declaration of Performance for every applicable product, outlining its key characteristics and performance levels.

2. Initial Type Testing (ITT)

All products undergo independent testing to validate their performance against required standards.

3. Factory Production Control (FPC)

We maintain strict quality control procedures throughout manufacturing, including:

- Consistent production processes
- Routine inspections and testing
- Skilled personnel and training systems

4. Product Labelling

Each compliant product is clearly marked with UKCA and/or CE labels, ensuring traceability and regulatory approval.

These steps ensure that every Façade Creations product consistently meets the required safety, durability, and performance benchmarks.

Why UKCA & CE Marking Matters

Compliance is more than a regulatory requirement - it's a guarantee of quality and trust.

UKCA and CE Marking ensure that:

- Products meet essential health, safety, and environmental standards
- Performance is tested and verified
- Products are legally approved for use in their respective markets

For our clients, this means peace of mind - knowing that every Façade Creations solution is built to perform, comply, and last.

Our Commitment

At Façade Creations, compliance is embedded into everything we do. From design to delivery, we ensure that every product aligns with current regulations while maintaining exceptional quality and reliability.
