Who We Are

Façade Creations is a vertically integrated consultancy and specialist in external building façades. Acting as principal contractor, we take responsibility for the entire journey, from design and procurement through fabrication and installation.

Because every stage stays under our control, our clients benefit from consistent quality, cost efficiency and seamless project management, with projects delivered on time and within budget.

Registered name	Façade Creations Limited
Registration	Registered in England, Company No. 16267073
Headquarters	Leicestershire, England

26
Offices worldwide

5
Continents

1
Accountable team, from concept to completion

Our Leadership Team

Hashim Choksi

DIRECTOR

Shapes the company's growth strategy, leading key partnerships and market expansion.

Zubeda Choksi

DIRECTOR

Combines ethical values with operational excellence and a people-centred approach.

Rodney J. Fowkes

SENIOR MANAGEMENT

An experienced leader in construction and façade solutions, guiding innovation and growth.

Francis Jassey

SENIOR MANAGEMENT

Upholds the highest standards of governance, risk management and compliance.

Core Activities

Design & Engineering

Façade engineering, systems analysis, structural design and architectural visualisation, creating envelopes that perform as well as they look.

Supply & Installation

Procurement, fabrication and installation of curtain walling, cladding, windows, doors and SFS, managed by our own teams as principal contractor.

Consultancy & Compliance

Construction consultancy, fire safety assessment, surveys and regulatory compliance support across the full life of a building.

Our Delivery Model

One team controls every stage. No hand-offs, no gaps, and a single point of accountability from the first sketch to final handover

Consistent quality

The same standards applied at every stage.

Cost efficiency

Fewer interfaces mean less waste and fewer surprises.

On time, within budget

Programmes we control are programmes we keep.

SECTION 01

Façade Systems

High-performance envelopes for every type of building

Aluminium Systems

Thermally efficient, durable and refined. Our aluminium systems are tailored to each project's performance and design requirements.

- Curtain walling
- Thermally broken windows
- Commercial and shop-front doors
- Sliding and patio doors
- Bi-fold doors
- Automatic opening vents
- Louvres and guarding
- Smart façade automation
- Trade and residential doors
- Bespoke shaped frames

Fire-Rated Glazing & Cladding

Fire-Rated Systems

Fire-rated windows, glass doors, curtain wall systems and glass partitions, protecting people and property without compromising on light or design.

Cladding & Rainscreens

Terracotta, stone, aluminium composite and metal rainscreen systems, plus glass balustrades and secondary steel framing (SFS).

SECTION 02

Consultancy & Compliance

Expert advice that protects people, programmes and budgets

Construction Consultancy

Commercial and technical expertise that keeps complex projects on track and resolves issues before they become disputes.

- Project controls
- Contract administration
- Claims management
- Delay analysis
- Quantum analysis
- Expert witness services
- Dispute resolution
- Civil and structural engineering
- MEP placement
- Temporary works design

Fire Safety Assessment

We assess buildings from the façade inward. Because we design and install external walls, we understand what sits behind the cladding, and we can deliver the fix.

Fire Risk Assessments

To PAS 79-1 and BS 9792

FRAEW & EWS1

External wall appraisals to PAS 9980

Fire Engineering

Fire strategies and Gateway One statements

Fire Door Surveys

Door-by-door inspection and repair

Passive Fire Protection

Compartmentation and fire stopping

Building Safety Act

Safety cases and golden thread support

Façade Fire Training

Practical training for teams

Cladding Remediation

From appraisal to installation

Construction Consultancy

Drone Surveying

Fast, safe inspection of tall and complex façades.

Façade Rope Access

Scaffold-free access for inspection, repair and installation.

Façade Engineering

Technical design and systems analysis.

Structural Surveys

Condition assessment and structural resolution.

Modelling & Visualisation

Architectural models that bring designs to life.

Care & Maintenance

Lifecycle stewardship to keep façades performing.

Smart Façade Automation

Automatic sliding entrances, opening vents and intelligent façade controls that improve access, comfort and energy performance.

We invest continuously in research and new technology to develop advanced aluminium systems that are sustainable and ready for the future.

SECTION 03

Sectors We Serve

From city centre offices to critical infrastructure

Target Sectors

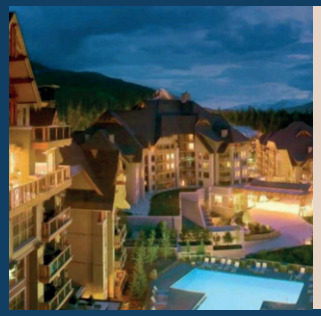

Commercial & Building

Offices, retail and mixed-use developments

Residential

Apartments, high-rise and living façades

Hospitality

Hotels, leisure and visitor destinations

Airports & Transport

Terminals, stations and transport hubs

Infrastructure & Industrial

Oil and gas, mining, process and industrial

Education & Public

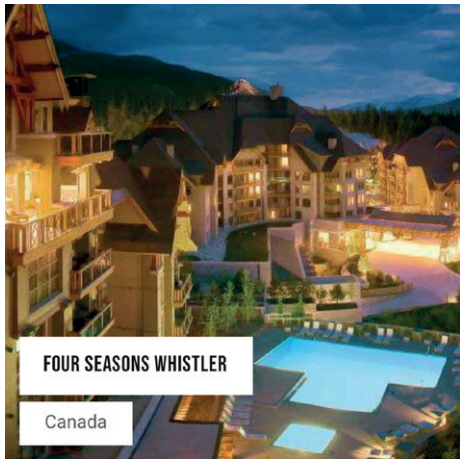

Schools, healthcare and civic buildings

We also support specialist defence and space sector projects.

Selected Projects
